Splashbacks that can add the finishing touch to any modern kitchen design

Bring your dream kitchen design to life with a beautifully patterned splashback that fills the entire wall space behind your hob, without compromising safety.

With **Alloy**, say goodbye to tiles and hello to a high performance, statement splashback you can place wherever you want.

Your **Alloy** splashback is fire-safe behind any hob and waterproof behind any sink; with simple sizing and no need for an expensive glass cover, to break up your design with a stainless steel hob panel.

Just cut, fit and cook.

Alloy[™]

What is a Splashback?

Until recently, simple wall tiles were the easiest and most popular way to protect kitchen walls from cooking splashes of grease or water.

Tiles, however, can be a real pain to clean and maintain over time. Tile grout gets mouldy and starts to look old really quickly.

A splashback is smooth, stylish and easy-to-clean solution to protect kitchen walls.

What is an Alloy Splashback?

Alloy splashbacks are patterned or coloured aluminium splashbacks, crafted to give you complete design freedom all around the kitchen - even in the Hot Zone behind the hob, unlike other splashbacks.

Alloy is a fire-resistant aluminium composite panel, available in different variations & sizes with aluminium trims. **Alloy** can be used in combination for wall lining or as a kitchen splashback, in a wide variety of kitchen design layouts. The 4mm thick panel system is uniquely manufactured using a composite substrate and has excellent rigidity and toughness but is also lightweight, making **Alloy** easy to install, clean and maintain.

Why Alloy?

Easy to Clean

Unlike tiles there is no messy and mouldy grout to clean, Alloy is incredibly easy to clean. Simply wipe down with a moist cloth and a mild detergent. Job done.

Quick & Easy Installation

Installing an Alloy splashback is easy and mess-free. Alloy splashbacks can be cut to size with basic tools and attached to the wall with adhesive. For an Easy Installation overview, please refer to page 36.

Beautiful Unique Designs

Choose from 30 designs, either solid colours or beautiful patterns, crafted to bring your kitchen vision to life. Inspired by traditional tiles, geometric patterns and natural materials, every design works with multiple kitchen trends to build your dream kitchen.

Lifetime Guarantee

Alloy splashbacks are guaranteed for their lifetime. We will make good by repair and/or replacement any Alloy Splashback which can be shown to have failed by reason of defects in its manufacture, subject to fair wear and tear.

Hot Zone Safe

Alloy splashbacks are steam, heat and fire resistant making them certified to be placed in the Hot Zone. This allows you to fill the full wall behind your hob right up to hood height without breaking your design with glass or stainless steel panels behind the hob.

Hardwearing & Scratch Resistant

Other splashbacks are damaged by steam and scratched by cleaning but Alloy Splashbacks are tough and hardwearing. You can place your Alloy splashback behind any hob or sink without compromising its look, feel or material integrity.

Alloy versus the alternatives

	Alloy	Tiles	Glass	Acrylic	Painted
Range of both Colours and Décors					
Budget friendly			Product cost is high plus large install cost due to templating	Generally premium cost	
Can be installed behind hob				Requires separate glass section for behind hob	
Available quickly			Glass has to be measured, templated and then manufactured to order		
Easy to install		Tradesperson generally required	Expert installation required	Tradesperson generally required	
Can be cut on site			Cannot be cut on site, making installation much harder		N/A
Easy to maintain		Grout requires constant care and cleaning			Not hardy enough to withstand constant wiping down
Durable				Acrylic marks and scratches easily	Paint flakes and scrapes easily
Mould Resistant		Grout gets mouldy and dirty very quickly			Damp areas can cause paint to get mouldy and flake off

Alloy Splashbacks are not only beautiful but incredibly practical for your home. Take a look at our chart on the right to see how Alloy outperforms all alternatives.

Alloy Ranges

Choose from 30 versatile Décor & Colour designs curated to bring your kitchen vision to life.

The **Alloy** range has been inspired by modern kitchen trends, traditional tiles, geometric patterns and natural materials.

Alloy Colour

Transform your kitchen with the deep rich colours of the **Alloy Colour** range. They can either blend seamlessly with the background or make a statement with a bold pop of colour. Available in gloss, matt or brushed designs - **Alloy Colour** is the perfect modern finish for any kitchen.

Alloy Décor

Alloy Décor is a beautiful range of decorative splashbacks designed to represent the earthy tones of nature and bolder modern, more geometric designs. Nothing beats our **Alloy Décor** range for a stunning instant kitchen transformation.

Alloy Colour

With **Alloy Colour**, you can have the feel of a painted feature wall, with all the modern benefits that **Alloy** brings. Our matt colours, such as Hadrian Green, as shown to the right, has all the stunning depth of colour and chalky feel of luxurious modern house paint.

Best of all though, unlike paint, **Alloy Colour** designs can be simply wiped clean with mild detergent and will not dry and crack.

Brushed Titanium Splashback with ZENITH Marmo Grigio Worktop

Brushed Titanium

Neptune Blue

Neptune Blue Splashback ZENITH Cloudy Nova Breakfast bar and Worktop

Alloy Colour in gloss, like Neptune Blue, as seen above, is a great way to add a pop of colour to your kitchen, and a glossy reflective surface can make any space seem larger and more open.

Our Brushed metal designs are not only practical but are a superb way of giving a modern industrial look to any interior.

Alloy Colour

Glacier White

Sometimes you can't go wrong with beautiful, simple, brilliant white.

In this kitchen, the **Alloy** Glacier White splashback perfectly balances against the modern grey walls, whilst the gloss finish adds a sense of depth to the kitchen, making the space feel both larger and brighter.

Finished with a high gloss reflective surface, messy cooks can rest assured that **Alloy** Splashbacks are super easy to clean by simply wiping down with a cloth. An ideal solution for those who want the simple look, but without the mess paint attracts.

Alloy Colour

Smoked Rose Splashback **OPTIONS** Gardenia Worktop

Smoked Rose

Battleship Grey

Battleship Grey Hob Panel

Smoked Rose is a subtle pastel colour that, as shown here, works brilliantly with the dark green cabinets used. Smoked Rose is a modern colour shade with a warm and soothing feeling that can work wonderfully in a luxurious kitchen.

Battleship Grey offers an ultra-smooth matt finish for those wanting to add depth to their kitchen, a stunning soft grey, perfect for a standout hob panel.

Alloy Décor

**MADE IN
BRITAIN**

Our **Alloy Décor** range allows you to create a unique design statement in your kitchen; from marble to woods and modern geometric effects.

Fluted Oak is one of our newest designs and one of which we are particularly fond. Horizontal lines can create a sense of width in your kitchen, and the beautiful wood grain pattern adds a lovely natural sense of serenity. We paired it here with a simple worktop to let Fluted Oak be the star of the show.

Heritage Walnut Splashback with **OPTIONS Nagoshi Pine** Worktop

Heritage Walnut

Viking Oak

Viking Oak Splashback with **OMEGA Brasilia** Worktop

A daring combination of classic wood and contemporary geometry, Heritage Walnut left, has an unmistakably midcentury feel with the gold pattern overlaying the rich walnut background. We've used a brass tap to really set the kitchen off.

With its wood texture, Timber finish, Viking Oak above, both looks and feels like real wood. Using **Alloy**, you can get all the beauty of natural wood in your kitchen, but without the extensive maintenance.

Brooklyn Concrete Splashback with **OPTIONS** Woodstone Grey Worktop

Brooklyn Concrete

Urban Steel

Urban Steel Splashback with **OMEGA** Urban Caldeira Worktop

We love industrial kitchen design, and both Brooklyn Concrete and Urban Steel are perfect for creating this trendy interior design idea.

To balance out the industrial feel, we'd recommend plenty of plants to add a pop of colour to complete the look.

Alloy Décor

Emerald Scallop

Fossil Marble

Emerald Scallop Hob Panel with **OPTIONS** Walnut Appalaches Worktop

Emerald Scallop is one of our most daring designs and can be made the focal point of any kitchen space. Beautiful shades of green give the impression of a Mediterranean stained glass window. Simply gorgeous.

With its stone texture Fossil Marble not only looks like marble but feels like it as well. All the look of natural stone and all the modern **Alloy** benefits.

Alloy Textures

Timber

Timber is a subtle woodgrain texture, mimicking the natural lines of wood and oak products.

Pietra

Pietra is a stone inspired texture, offering subtle bumps designed to enhance the decor.

Shell

Shell is a soft matt texture offering a smooth finish to complete the look.

Alloy Sizes

You need uncompromising design, so why compromise?

Alloy Splashbacks come in four sizes, but you're not limited by the size of the panel you buy - it's easy to cut your panels to the size and shape you need.

High Rise Splashback – The 750mm height of the high rise splashback allows you to fill the wall right up to hood height with design whilst being safe in the knowledge they are certified to be there. You don't need to interrupt the design with a different panel type to protect your home

Mid Rise Splashback – The Mid Rise splashback's 600mm height is ideal for use behind a sink, or filling the space behind a hob between worktop and upper cabinets.

For a focused area of design a hob panel is the perfect solution. Choose between two different sizes both with an 800mm height.

Alloy Easy and Fast Installation

Alloy video installation guide. Scan the QR code to view installation video.

Just cut, fit and cook.

Alloy splashbacks are quick and easy to install, with no professional fitting required. To view our installation video or download our installation instructions visit www.bushboard.co.uk/alloy

Installation.

Alloy splashbacks can be jointed with simple Butt Joints or by using our beautiful aluminium trims available in both Matt Silver and Anthracite.

Trims are available to neatly fit either an internal or external corner, and edge trims create a sleek finish.

Trim Finishes

Alloy Complete Adhesive and Sealant

Complete Adhesive and Sealant

We know the importance of the final installation, that's why we've developed Complete, our bespoke adhesive and sealant which should be used when installing your Alloy Splashbacks.

Complete is available as an adhesive used to adhere your splashback to the wall and a colour matched sealant used to complete your installation around any joints or edges.

Our unique installation adhesive is technically superior and should be used to bond the panels to the wall. As this is not seen it is a cost effective neutral colour.

Complete sealant is available in a range of colour options, either choose from our recommendation for your splashback or match to your worktop. The sealant colours in our matrix on page 39 are our suggestions, feel free to use any colour from the selection that you deem more suitable to coordinate with your chosen splashback. It's flexible, super strong and will not shrink or breakdown like silicone.

Alloy Lifetime Guarantee

Our Testing.

Alloy splashbacks are beautiful, but they're also tough, performing exceptionally well during European Standards testing. Due to the nature of the aluminium material, they are 100% post consumer recyclable. For technical data please visit:

www.bushboard.co.uk/alloy

Lifetime Guarantee.

Alloy Splashbacks are guaranteed for their lifetime. Bushboard will make good by repair and/or replacement (at its discretion) any Alloy Splashback of its manufacture which can be shown to have failed by reason of defects in its manufacture, subject to fair wear and tear, provided the product has been installed and used in accordance with the manufacturer's instructions and that the products are used for their intended purpose.

Proof of date and place of purchase required. This guarantee is in addition to your statutory rights as a consumer and does not affect your rights in any way.

Alloy Maintenance

Keep it Clean.

Alloy splashbacks are high performance with low maintenance. We recommend keeping yours in top condition with the following steps:

Remove splashes, oil and grime by wiping clean with your preferred gentle household cleaner.

Use a soft, non-abrasive cloth. We recommend a microfibre cloth or sponge
