

nuance

welcome to nuance

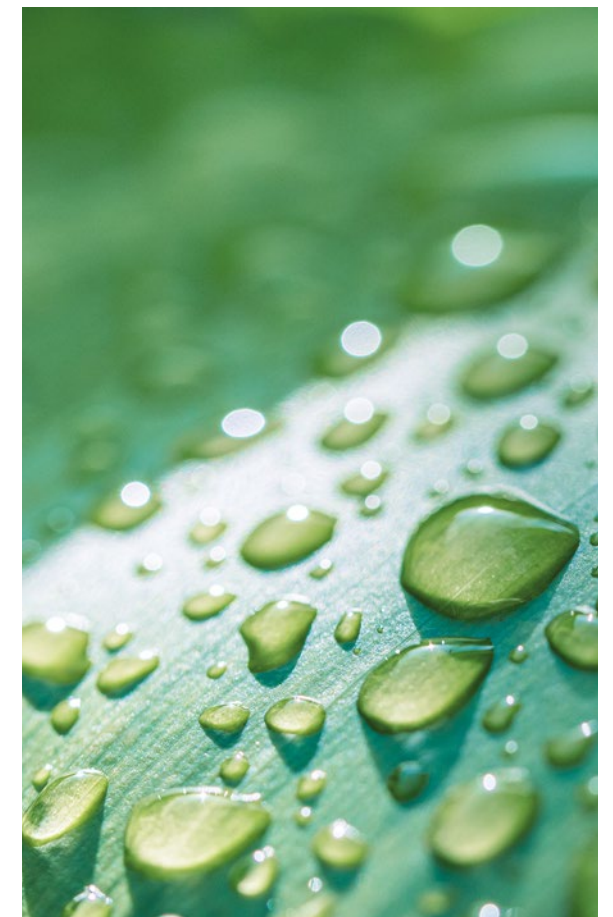

Nuance is an award-winning, design-led wall panel system engineered for modern bathrooms. Fully waterproof and backed by a lifetime guarantee, Nuance combines cutting-edge style with long-lasting performance - making it the smarter, sleeker alternative to traditional wall coverings such as tile, marble and stone.

make a more sustainable bathroom design choice

When comparing bathroom wall panelling to tiles, there are many factors that present wall panels as a better environmental choice:

- Lower CO2 manufacturing footprint
= Up to 75% less emissions vs tiles
- Lighter material loads = Lower transport needs, meaning less emissions
- Minimal maintenance = Longer product lifetime.

what makes a nuance panel?

100% waterproof

With Nuance you can be 100% confident that our panels are 100% waterproof – that's because our panels are uniquely manufactured using a synthetic, homogenous core that is 100% impervious to water.

Add to that the high performance surface, plus installation with our Wilsonart Complete adhesive and sealant, and you have a bathroom area that is guaranteed for its lifetime.

trimless systems

Nuance trend and designer collections are unique for being a patented, trim-free system. The large format panels have a postformed outer edge that means no trims are required for finishing. The tongue and groove panels can be jointed with our bespoke adhesive.

This gives you joints which are 100% watertight and creates a seamless finish. With no trims needed, you don't have to compromise in your bathroom design.

easy & fast installation

Our panels can be tailored and installed in a matter of hours. So if you're planning a bathroom project, you can cut down on the disruption and time taken compared to tiling. Plus, with Nuance panels being so easy to install, you won't need a specialist tiler.

lifetime guarantee

We're proud to offer a lifetime guarantee on our Nuance panels. As long as you use our Wilsonart Complete sealant and adhesive, you can rest easy in a waterproof bathroom.

great choice of designs

From trend-led terrazzo patterns to bold solid colours and elegant full-scale marbles, Nuance offers a wide range of over 40 stunning designs that will transform any washroom space. Our large-format panels create a seamless, grout-free finish that's as practical as it is beautiful - perfect for homeowners who want standout style without compromise. Whether you're drawn to contemporary minimalism or timeless luxury, Nuance design-led surfaces promise to make a lasting impression.

made in Britain

We're proud to say that Nuance trend and designer collections are manufactured in Britain. We've been producing fabulous products since 1935.

our ranges

It's easy to find your perfect panel with Nuance. We offer three wall panel ranges, as well as a range of co-ordinating worksurfaces and accessories, to ensure it's simple as possible to create the dream bathroom.

08 nuance trend

With five trend categories to choose from, our classic Nuance collection features 22 beautiful designs with amazing textured finishes.

22 nuance designer

Created by our in house design team, Nuance designer offers all the benefits of Nuance panels on a soft matt finish.

30 nuance fusion

Available in a choice of modern colours and statement designs, these beautifully crafted, ultra-durable wall panels and matching vanity splashbacks bring a sleek, modern edge to any space.

38 vanity countertops

Our laminate vanity countertops are designed to co-ordinate across our Nuance range, offering endless design options.

42 slimline countertops

Explore our latest slimline vanity countertops - 100% waterproof and ultra-durable, making them perfect for any stylish, contemporary bathroom design.

44 shower storage

Discover the perfect balance of style and function with our innovative shower storage solutions.

nuance marbles

For those wanting to achieve a high end, luxurious finish, we have a great range of marble inspired panels. Pair with bold fittings to create a statement bathroom, or tone down with neutral tones to create a timeless look.

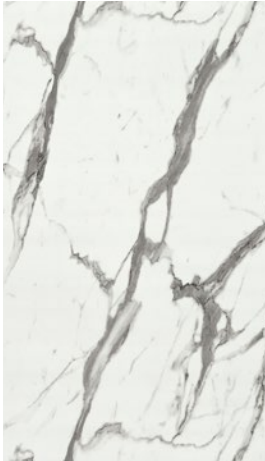

Bianco Carrara, shown, is one of our favourite statement pieces from this collection, with soft veining that has been painstakingly reproduced to create an iconic marble look.

endless design options

Panels can be rotated 90° to be used as matching, or contrasting bath panels, as well as half height panels around your bathroom.

Decor shown: Chalkwood wall panelling with Turn Marble worksurface

nuance woods

With our wood panels, you can create a spa like sanctuary in your bathroom, without having to worry about the problems that wood in a bathroom can bring. Driftwood is paired with a realistic wood texture, whereas Chalkwood has a rough finish complementing the design.

We love our Chalkwood panel, shown in this stunning wetroom, paired with statement black fittings to create a haven in your bathroom. You can create a Scandinavian style bathroom by injecting darker woods, such as Driftwood into open spaces paired with simplistic fittings and colours.

complete adhesive and sealant

We know the importance of the final installation, that's why we've developed Wilsonart Complete Adhesive and Sealants, a bespoke range of professional-grade finishing products, which should be used by your installer when your Nuance panels are fitted.

Wilsonart Complete Adhesive

A professional high strength adhesive that's ideal for all bonding needs. The quick grab formula is 100% waterproof, odorless and bonds to most clean dry surfaces including wood, plastic, brick, plasterboard, metals. Gap filling with no shrinkage and flexible once cured, it's easy to use with a 10-15 minutes open time.
Size: 290ml

Wilsonart Complete Sealant

Available in 15 specially formulated colours, plus clear, this high performance waterproof sealant is ideal for all sealing and finishing needs. Odorless and easy to use with a 10-15 minutes open time. 100% waterproof formula with no shrinkage and flexible once cured, it's anti-fungal protection provides a long-lasting waterproof seal.
Size: 290ml

Guarding Against Moisture Ingress & Expansion. Recommended for use across all Wilsonart products. As specified in the installation guide, usage of this product is essential to validate and guarantee any associated warranty the company provides.

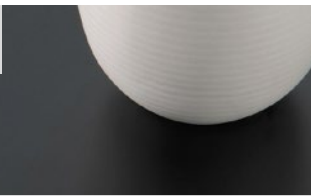

16 specially formulated sealant options

Wilsonart Complete Sealants have been developed to coordinate seamlessly with each decor in the Nuance range. For a detailed overview of colour matching for each decor, please refer to the product matrix on page 52.

a guide to texture

Shell

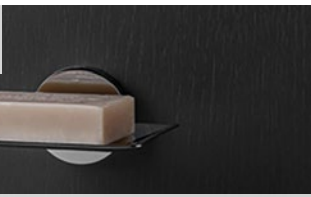

Matt finish with a smooth surface

Roccia

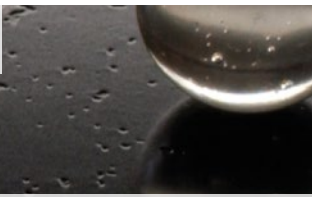

A beautiful matt, textured finish

Timber

Natural finish emulating the look and feel of wood

Quarry

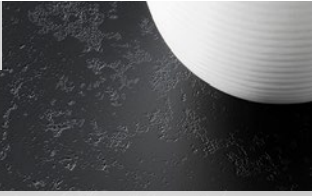

Premium finish emulating the "pitted" look of polished natural stone

Grain

The fibre of wood underpinned by a subtly irregular and silky grained surface

Mineral

Matt finish with an irregular stone structure

Roche

An uneven texture with hints of natural stone or hammered metal combined with a matt finish

Riven

A stone like finish with a slightly reflective surface

Glaze

A layering of matt features over a glaze of semi-gloss creates this timeworn effect

Eggshell

A refined satin eggshell, soft to touch, radiating purity and discretion

Gloss

High shine, smooth finish

Ultramatt

Matt appearance offering a low reflective finish

nuance trend and designer panel sizes

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with any shower enclosure. And you can finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

1200mm

10mm

Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Size 2420 x 1200mm one finished radius edge and one tongue.

Features one finished radius edge and one tongue to link to T&G panels.

1200mm/600mm

10mm

Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove.

Our T&G panels in 600mm widths offer the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove.

580mm

10mm

Feature panels

With two pre-finished edges, the ideal panel to finish behind WCs and wash basins. It's especially good for cloakrooms and en-suites.

Size 2420 x 580mm with two finished radius edges.

160mm

10mm

Finishing panels

This panel allows you to finish a run of T&G panels vertically with a neat postformed edge detail, instead of using trims. It can also be used as an upstand.

Size 2420 x 160mm one finished radius edge and one tongue.

nuance fusion panel sizes and trims

1220mm

4mm

Nuance fusion panels

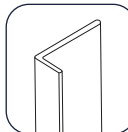

- Size 2440 x 1220mm x 4mm
- Size 2440 x 900mm x 4mm
- Size 2440 x 600mm x 4mm

Nuance vanity splashbacks

- Size 800 x 250 x 4mm

Essential to validating this product's lifetime guarantee, profiles are used to neatly seal edges and join panels and corner panels. Use the guide below to help select what profiles you'll need for your Nuance fusion installation project:

End Cap

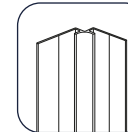

Use these profiles to cover any exposed ends.

External Corner

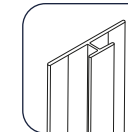

Use these profiles when needing to join two panels on an external joint.

Internal Corner

Use these profiles when needing to join two panels on an internal joint.

H-Joint

Use this profile when needing to join two panels.

All profiles are manufactured from aluminium and are available in 2440mm lengths. Choose from either a polished silver or black finish.

[illegible]

All laminate vanity countertops have a postform radius. All 12mm slimline vanity countertops have a square edged profile.

Working with designs and joints

Patterns are not designed to align across joints, which is normal for natural stones and woodgrains, with the exception of our Nuance Fusion smart-panel alignment decors.

Nuance Fusion smart-panel alignment decors are specifically designed to align, meaning that when the panels are fixed together in any panel combination, the design continues seamlessly.

Panel trims - Nuance & Nuance Designer

All Nuance panels are waterproof so do not require trims. However, if you have a preference to use them they are available in satin silver, white and black.

Panel trims - Nuance Fusion

Available in polished silver and black.

Types: internal, external, H-joint and end cap.

Vanity Surfaces

Vanity countertops come with a matching edge strip.

Wilsonart Complete Adhesive & Sealant

To validate your lifetime guarantee Wilsonart Complete Adhesive and Sealant must be used.

Nuance must be bonded to the wall with Wilsonart Complete panel adhesive and as this is not seen it is a cost effective neutral colour. Designed to fit a heavy-duty mastic gun, one cartridge installs one 1200mm panel.

Also available as a sealant in 16 colour options to co-ordinate with the full range of Nuance designs. Please refer to the matrix opposite for our suggested sealant colour match.

Can I sit the Nuance panel directly onto a shower tray or bath edge?

Yes. Nuance panels must be fitted onto a shower tray or bath edge and a 3-5mm gap left, which should be filled with a bead of Wilsonart Complete Sealant.

How much adhesive and sealant is required for one panel?

We recommend using 1 x 290ml tube of adhesive to bond a 1200mm panel to the wall. 1 x 290ml tube of sealant contains 20 linear metres at a 5mm bead.

Can I hang wall mounted items to Nuance panels?

Yes, wall mounted items can be hung on to a Nuance panel as long as the fixings go through the panel into a solid wall behind.

Do I have to use Wilsonart Complete and how should it be used?

Yes, you have to use Wilsonart Complete Adhesive and Sealant in order to validate your lifetime guarantee. Wilsonart Complete Adhesive is our neutral quick grab adhesive used for bonding panels to the wall. Wilsonart Complete Sealant should be used for all joints.

Can I use a Nuance panel as a bath panel so it will match the rest of the bathroom?

Yes, visit www.bushboard.co.uk and watch our installation video for advice on how to cut a 1200mm postformed panel for this purpose.

Can I fit the Nuance panels to plasterboard?

Yes, as long as the plasterboard is secure, flat, smooth and clean.

Can I apply Nuance panels directly to tiles?

Yes, as long as the tiles are clean, smooth and solid and all existing sealant is removed. The tiles should be scarified with abrasive paper.

How do I clean Nuance panels?

All you need to do is wipe them down with a moist cloth and your favourite mild detergent.

here to help

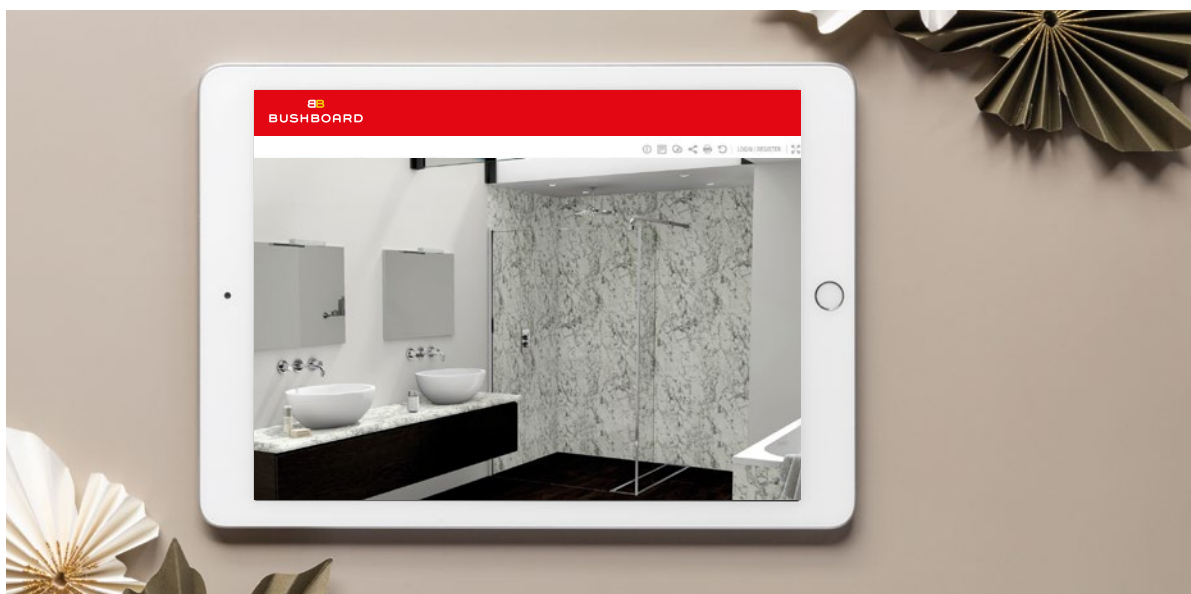

Choosing a new bathroom is an exciting time and we have all the tools you need.

Start online with our Nuance planner, get creative with our Design Studio and then order your samples and find a retailer. With Nuance it's so easy.
